THE BOLD LOOK
OF **KOHLER**

THE HEART *of your home.*

Kitchens bring us together. It's where we gather for easy conversations over shared dishes with people we enjoy. It's also where life can get messy. So today's kitchens need to do double duty, not only be inviting and comfortable, but also help minimize the mess. At Kohler we design for both.

No matter where you fall on the "love to cook" and "love to entertain" spectrums, we have beautiful solutions to meet your needs. From touchless faucets to innovative sprays and from sleek big bowls to stackable accessories, KOHLER® kitchen products will help you design your dream kitchen.

Turn the page to get started.

HOW to use this book

Ready to discover your dream kitchen? This book is designed to help you journey from dreaming to building. Here's your map.

1

INSPIRATION

You want personality and style *and* lasting beauty. We get it, and we can help you design a look that does it all.

Explore 6 Trends

White, Smoky, Noir, Pale, Pattern and Color

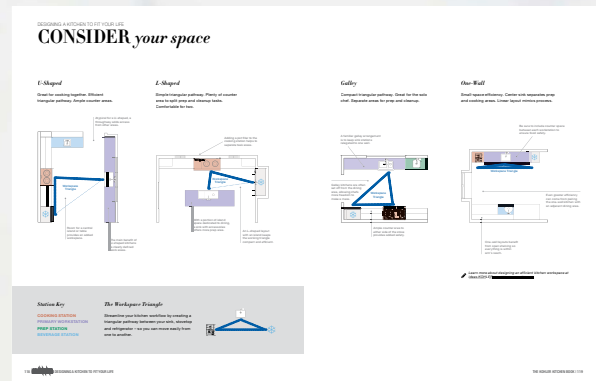

Tour 12 Kitchens

Within each trend section, see how the look translates to traditional, transitional and modern kitchens.

2

PLANNING

Before you dive into choosing specific products, we'll walk you through the more important things to keep in mind.

3

PRODUCTS

Now the real fun starts – choosing the items that will actually bring the kitchen you’ve been dreaming of to life.

KEEP AN EYE OUT

You’ll find tidbits of design and product advice throughout the book. Here’s a simple key to help you find what you need.

WHAT'S TRENDING

Trends we think you'll love.

Helpful product details.

SINK GUIDE

INSTALLATIONS

Top Mount

- Fits into a standard 3 1/2" deep cabinet
- Offers great visibility and accessibility
- Best for spaces above countertop level

Under Mount

- Allows for easy cleaning underneath
- Offers extra storage space
- Best for spaces below countertop level

Drop-In

- Fits into a standard 3 1/2" deep cabinet
- Offers great visibility and accessibility
- Best for spaces above countertop level

Edge-Mount

- Fits into a standard 3 1/2" deep cabinet
- Offers great visibility and accessibility
- Best for spaces above countertop level

Fit-In

- Fits into a standard 3 1/2" deep cabinet
- Offers great visibility and accessibility
- Best for spaces above countertop level

Wall Mount

- Fits into a standard 3 1/2" deep cabinet
- Offers great visibility and accessibility
- Best for spaces above countertop level

BOWL CONFIGURATIONS

Single-Bowl

- Ideal for smaller kitchens and patios
- Available in a variety of sizes and finishes
- Best for spaces above countertop level

Offset

- Offers great visibility and accessibility
- Available in a variety of sizes and finishes
- Best for spaces above countertop level

Double-Equal

- Offers great visibility and accessibility
- Available in a variety of sizes and finishes
- Best for spaces above countertop level

Bar Sinks

- Offers great visibility and accessibility
- Available in a variety of sizes and finishes
- Best for spaces above countertop level

KITCHEN SINKS

KOHLER ENAMELED CAST IRON

Blaze-resistant, easy-to-clean, and guaranteed to last in style, such as yours! The cast-iron sink is the heart of your kitchen and a centerpiece for your countertop and cabinetry.

TRENDS & ROOMS *at a glance*

Here is a quick look at how our trends and rooms are organized. Each of the six trends is featured in two rooms. These rooms fall within a range from traditional to modern styles. However, since design styles rarely fit neatly into boxes, we've placed each room along a spectrum from traditional to modern.

INSPIR

ATTION

Bright and airy, white has seen an uptick in popularity, especially in the kitchen where its association with cleanliness has added appeal. And as the next two kitchens reveal, white is a favorite of designers from LA to NYC.

white

arte

WHITE

White space. It lets the eye rest and calms the mind. And as the main ingredient in any ensemble, white invites a certain lightness of being, a sense of untethered possibility. In the kitchen, white speaks to clean simplicity.

Designers today choose white as the defining color for traditional as well as ultramodern spaces. Exceptionally versatile, it runs the gamut from futuristic and otherworldly to soft and cozy. As always, white remains a daringly elegant choice.

garden galley

WHITE | TRADITIONAL

New York-based designer Courtney Cachet chose a white-on-white color palette for this traditional galley kitchen. Juxtaposing modern faucets and hardware designs against a coffered ceiling and arched doorway, Cachet combines classic and contemporary design to create a wonderfully welcoming kitchen.

Q&A

WITH DESIGNER COURTNEY CACHET

Why is white such a lasting look across design trends?

Trends come and go but white kitchens are overwhelmingly the most popular. They feel clean and bright. Since it is typically the first place homeowners go in the morning, white makes a lot of sense. This is how you start your day.

How does your finish choice, Vibrant Brushed Bronze, inform other elements in the room?

It felt like a vintage brass. With all the glam hardware and the brass finished hood, I didn't want something super bright. This feels more elegant. And it adds just enough to highlight the metallic flecks in the Lusso counters.

Designed to be practical as well as beautiful, the kitchen features two sinks. The primary apron-front single-bowl sink is perfect for washing big pots and pans, while the smaller prep sink makes the kitchen comfortable for two cooks working together.

Do you have any design tips for people with galley kitchens?

Add more design. Often, we are more inclined to keep small spaces ultrasimple but that's all wrong. Small spaces need more design and decor – and it's much easier when you have two equal sides! Go for it.

Do you have a general design tip for homeowners?

Don't wait to make your home fabulous. Don't wait till your children get older or the proverbial "when we have more time." There's never enough time. Make it happen and you'll thank me later.

New York-based celebrity designer and TV personality, Courtney Cachet is known for her designs including home decor accessories, paper goods and furniture.

Bend it up or down,
swivel or fold it out of the
way, the Karbon[®] faucet puts
water where you need it.

WHAT'S TRENDING

Farmhouse sinks aren't just for the farm. With apron-front designs that range from sleek stainless steel to handcrafted enameled cast iron, farmhouse sinks are finding their way into kitchens everywhere.

Don't wait to make your home fabulous. – Courtney Cachet

White and gold notes in the backsplash and counter are reinforced by the Vibrant® Brushed Bronze faucet paired with gold hardware finish and an enameled cast iron sink in Sea Salt™ with Simply White walls.

GET THIS LOOK

Whitehaven® sinks are available with a shortened apron, that is perfect for retrofitting to existing cabinets.

Texture and tone are the heroes of this kitchen. High-gloss enameled cast iron is set against matte walls and cabinets, and bronze faucet and gold hardware finishes draw out the gold tones in the counter and backsplash. Dark wood floors ground the white with warmth and depth.

HOME TOUR

LA ESSENTIALS

WHITE | MODERN

Perched high on a Hollywood hill, this ultramodern home designed by Warren Techentin Architects makes the most of its commanding vistas with expansive spaces that are perfect for entertaining.

 *To see more of this home, visit ideas.KOHLER.com/LA-Essentials*

Fresh filtered water is always at the ready with a Wellspring® beverage faucet.

Adjacent to the pool and overlooking the glittering lights of LA far below, the casual kitchen is a natural gathering spot for cooking and eating together. A window slides open for easy access to an outdoor dining room.

WHAT'S TRENDING
Spaces that allow us to blur the lines between inside and out with features like glass windows and walls are becoming less about luxury and more must-have.

With deep bowls and premium stainless steel, Strive® kitchen sinks are the home chef's dream.

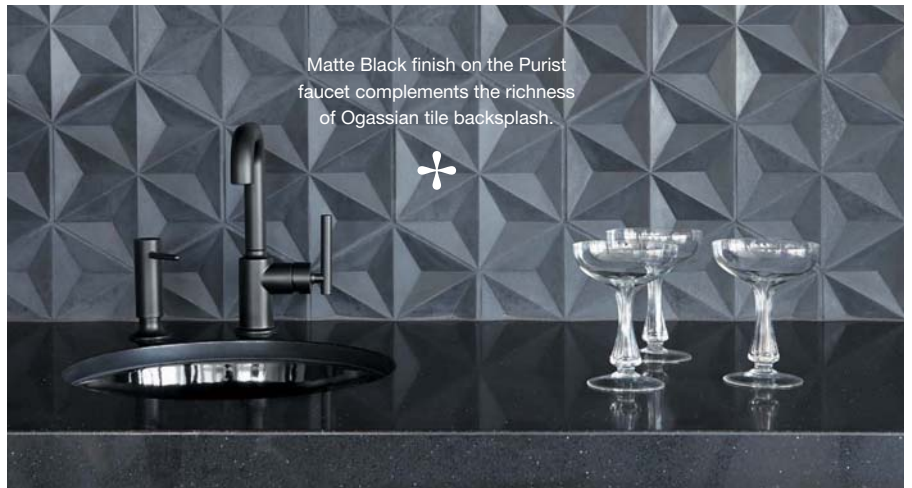

If space allows, combining your cooktop, prep sink and counter seating into one large island creates the perfect spot for family and friends to gather for cooking and noshing.

+ Poise® kitchen and bar sinks are handcrafted from our most durable steel.

Keeping the focus on the surrounding views and life outside, smooth walnut doors hide an elegant wet bar and unexpected flourish of color.

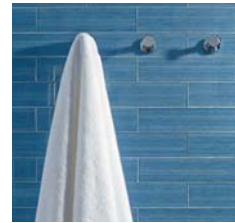

Matte Black finish on the Purist faucet complements the richness of Ogassian tile backsplash.

Continue the tour online.

Gold-hued browns and rich woods suffuse our smoky kitchens with an earthy elegance. From sculptural simplicity to tropical iridescence, the designer kitchens that follow showcase the smoky trend at its finest.

Smoo

OKW

SMOKY

A sultry mix of rich flavor and subtle spice, this moody color palette is filled with blazing golds and sun-kissed caramels. At once warm and earthy, smoky celebrates nature's textures and tones across a wide mix of materials both organic and synthetic.

In the kitchen, smoky colors often ground a space and establish a sense of calm. Designers build on that base, layering copper and brass hues and bringing out a quiet but impactful vitality.

Rio Revelry

LATTICED LUXE

SMOKY | TRANSITIONAL

Tucked above a vibrant cityscape, Mark Williams' loft kitchen is an urban cooking and entertaining enthusiast's dream. Nymbus countertops paired with richly grained slab-wood cabinets evoke an organic warmth, while the exposed brick and black accents bring a masculine sensibility into play.

To see more of this room, visit
ideas.KOHLER.com/LatticedLuxe

Q&A

WITH DESIGNER MARK WILLIAMS

How is kitchen design changing as men spend more time in there?

This particular kitchen definitely has a masculine side to it. I think people tend to feel darker colors and strong woodgrain are more masculine design elements, but we did try to soften that with the subtle curved shape of the backsplash behind the range and the textured subway tile on the back wall.

How do you see the smoky trend playing out in the kitchen?

I think it works really well with today's open plan living spaces. When kitchens were sequestered on their own, they didn't necessarily need to blend in with the aesthetic of the rest of the home. Now, kitchens need to be a little bit more luxurious in their palette and style. I think this smoky style incorporates all of that; it's even a little sexy.

How do you go about incorporating both matte and high sheen in a kitchen?

A successful space is typically a composition of compelling opposition, new and old, hard and soft, shiny and matte...These oppositional pairings, when used strategically and with precision, make more interesting spaces that can continue to evolve over time. It makes everything feel a little less formulaic.

Mark Williams specializes in both architectural design and interior design. He has developed a reputation for creating balanced, beautiful spaces by considering the architectural and interior design as a single process.

 To see more of this room, visit ideas.KOHLER.com/LatticedLuxe

In open lofts, privacy screens can help define separate living areas while maintaining an open concept ambiance

Fill pots the easy way
with HiRise pot filler.

WHAT'S TRENDING

In keeping with a desire for clutter-free spaces, many kitchens now feature sinks that use and store stackable accessories. The more streamlined a space is visually, the more organized it feels.

Efficiency is built into each area from the sink to the cooktop. Stages™ sinks and accessories were designed specifically to support mise en place food prep. And the wood cutting board slides snugly across the top of the sink, covering used dishes while providing a workspace.

 To see more of this room, visit ideas.KOHLER.com/LatticedLuxe

Think about your backsplash as an opportunity to be creative – bring in a new material or design element.

Stages sink and accessories were designed with the home chef in mind.

The bridge design of the Purist faucet nods to the industrial chic style of this loft kitchen.

RIO REVELRY

SMOKY | MODERN

Brazilian design influences give this kitchen its sleek, spirited energy. Walnut cabinets with vertical slats throughout combine with an opalescent backsplash to create a tropical minimalist paradise.

 To see more of this room, visit ideas.KOHLER.com/RioRevelry

Riverby® enameled cast iron sinks in Cane Sugar™ draw out the more subtle notes of the brilliant backsplash.

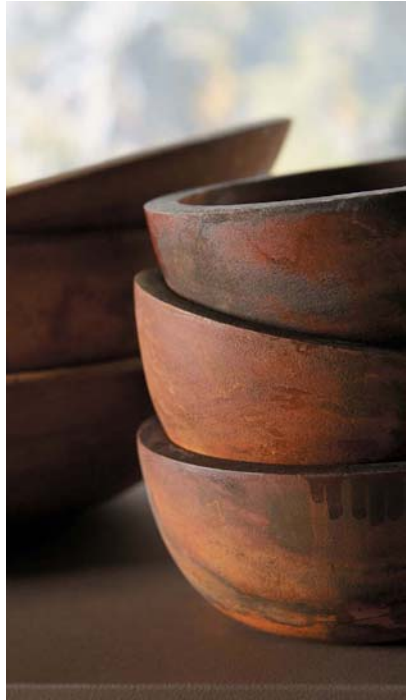

Four bold and dynamic elements come together in Rio Revelry. Dark vertical wood slats establish a solid uniformity against an abstract concrete floor. Both have a subtle masculine edge softened by birds of paradise wallpaper and a shimmering feather backsplash.

Endlessly shifting from playful pinks and blues to sunny golds and browns, the iridescent backsplash with metallic veining brings movement and vitality to the design.

 To see more of this room, visit ideas.KOHLER.com/RioRevelry

The Riverby sink family includes primary and prep sinks so you can coordinate both areas.

Introduce a curvy organic pattern if you have strong, clean lines that you want to interrupt and balance.

WHAT'S TRENDING

Brazilian minimalism is hot right now. Bringing together natural warmth and exuberant pattern, it's modern made lively.

A splash of cool, a Vibrant[®] Stainless finish on the Evoke[®] faucet stands out against the heat of the iridescent tile.

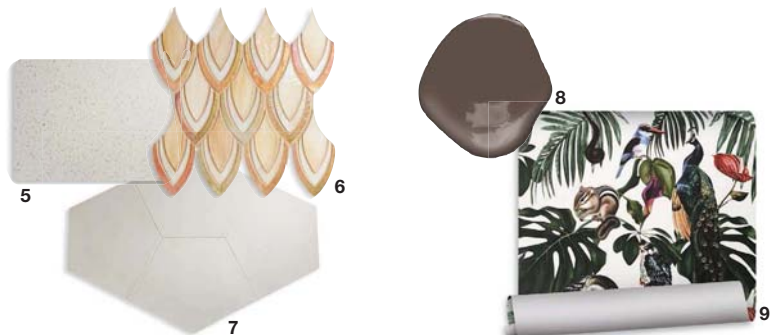

If dark wood is your first choice for cabinets in the kitchen, choose light-colored floors and counters to keep it airy and open.

mo

ur

Glamorous and formal. Edgy and fresh. Design just doesn't get more sophisticated. We love the drama black brings to both of the kitchens that follow, from urban classic to mountain getaway.

NOIR

A perennial favorite in interior design, black is a practiced shapeshifter, able to straddle the worlds of both classic and contemporary styles with confidence.

And today black's iconic beauty is making its presence felt in the kitchen more frequently, especially with the recent debut of black stainless steel appliances. Building on this trend, designers are introducing vibrant metals and layering textures to bring even more depth to predominantly black spaces.
